

Rethinking Education

PREPARE YOURSELF FOR TOMORROW

LuTEC is a revolutionary high school created for students. We believe that all students should have an education that encourages them to gain a stronger understanding of who they are and their God-given gifts.

- **Student Centered:** Education is personalized and relevant based on students' passions and goals.
- **Technologically Rich:** Learn to understand technology and apply concepts for a better world and future.
- **Career Ready:** Receive real world training. Our industry partnerships help you learn beyond the walls of the classroom.
- **Gospel Centered:** Students learn to be disciples of Christ from dedicated Christian staff.

Are you ready to rethink education?

LuTEC⁺
HIGH SCHOOL

At LuTEC, we believe high school students in the greater Norwalk area need something different; very different than the typical options afforded to them.

Most Schools are not designed with students in mind they are compliance-based and teacher-centered, focusing on teaching , rather than student learning. Many don't adequately prepare students for life and career, and there isn't much flexibility in learning.

At LuTEC, we believe in a personalized, flexible, values-rich education. We believe in assisting our students to navigate and understand Biblical values and ethics in light of a secularized and changing world. Students taught to think and process on their own set themselves up to be successful adults.

Our core curriculum is University of California and NCAA Approved

Curriculum Design

Our educational relevant curriculum, taught by high-quality Christian educators provides a personalized, relevant course of study that prepares students for college or career

Practical Experience

Real-world training and partnerships with business and industries within the community will help students to focus high demand job training and will give students and advantage in the workforce.

Spiritual Mentorship

Our highly dedicated Christian staff, alongside pastors and Christian business leaders, make it a priority to serve as a faith mentor to students, providing practical theology curriculum and practice in defending and sharing their faith
