Long

LuTEC is a new High School in the heart of Norwalk created with students in mind. We are “Rethinking Education” by exploring creative ways to engage students in their studies and experiences in the classroom and out in the community. LuTEC is part of a Christian High School Network that provides an individualized and flexible education plan that is affordable compared to most private schools.

Our goal at LuTEC is to help students experience a solid foundation for career readiness and give the students an advantage post-graduation. We do this through a non traditional classroom setting geared around what the students want to accomplish after high school. Whether it is a great paying job right out of high school or moving on to higher education, LuTEC will prepare them for all that God has in store. Find our more at LuTEC.org
